Bootstrap
SEO

SQL
MongoDB
Robo3T
Mongoose
CRUD

SSL
CDN
Cloud Deployment (Digital Ocean)

tl;dr HIRE ME! You won't regret it. #fully-vaccinated

Summary

I am a highly self-motivated programmer / web developer looking to turn my passion into a career I can grow in.

I am a leader. I think fast, solve problems and get the job done correctly.

I am always learning and developing new skills.

Apps

Vox Eterna

website <https://voxeterna.com>

SEO Multi-user blogging platform that allows users to create and manage blogs.

MERN Stack: Node API, Express, MongoDB, frontend with React Hooks and SSR with NextJs, deployed to Digital Ocean with Cloudflare CDN and SSL.

Features: User signup/signin, forgot/reset password, account activation, Google OAuth login, JWT authentication, admin/user dashboard, role-based authorization, CRUD with image upload, blog search, pagination, categories, tags, profile page with list of blogs and contact form, private dashboards, DISQUS commenting system, related blogs, Google Analytics integration

E-Commerce

website 143.244.175.133

MERN stack React Hooks, Node.js API, MongoDB powered E-Commerce app

Features: PayPal and credit card payment along with user and admin dashboards, search, filter, manage products and orders.

Code

<https://github.com/jtalway>

Python hacking tools, MERN stack social network, MERN auth boilerplate, more

Education

Udemy
